Mayburg Tar Pit Site
Mayburg, Forest County, Pennsylvania

Statement of Work

At the Federal On-Scene Coordinator's ("the OSC") direction,

[1] provide all the necessary supervision, labor, equipment, materials, and support services necessary to mitigate the effects of actual or potential discharge of chemical wood tars from the defunct Mayburg Chemical Company facility tar pit located on the floodplain of Tionesta Creek;

[2] arrange for the fabrication and installation of bridge railings to on the USFS-owned bridge over the Tionesta Creek to ensure safe passage to and from the site;

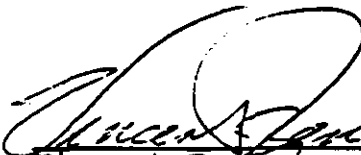

[3] arrange for the repair and regrading of the dirt/gravel road through Mayburg to facilitate transport of the tars and contaminated debris from the site;

[4] arrange for the on-site accumulation, on-site storage, sample collection and analysis, and off-site transport and disposal of the chemical tars from the tar pit; recovery and recycling of chemical tars is the preferred action;

[5] arrange for the on-site accumulation, on-site storage, sample collection and analysis, and off-site transport and disposal of contaminated debris from the site; and/or

[6] as otherwise directed by the OSC.

All activities are to be conducted in a manner which ensures smooth interaction or transition between EPA, the United States Forest Service, the Pennsylvania Department of Environmental Resources, and the Pennsylvania Fish and Boat Commission. All activities associated with the removal action shall be conducted in accordance and compliance with existing State requirements.

Vincent E. Zenone, OSC
